	Sol LeWitt	1		

Notes:
Data extracted from: Appendices/Databases: 1.4, 1.7 (see pp. 314-338). The period for the data is 1967-1980. Several galleries opened in 1967 and some closed by 1980. This data is based on the number of public museum collections and not on the value of those sales. The data only includes public museum collections and those private collections that are now part of public museum collections.
Other sales in this period to private collections and museums outside Europe are not included.
* The figure '.5' refers to occasions where a purchase has been made from two dealer galleries.
