COUNT ON ME

Miguel Tanco

Some people see the beauty of the world in art, some people in music; our heroine sees the beauty of the world through... maths!

In trees' branches, in the geometry of playground equipment, even in the lake's rippling water – maths, we learn, is everywhere around us. Others don't understand her passion, but she doesn't mind. There are infinite ways to see the world – and her way is through numbers.

Count on Me teaches children to follow their dreams, however unconventional they may feel. The book includes illustrated explanations of mathematical principles for children.

EVERYTHING IS MINE

Andrea D'Aquino

'My name is Marcello Von Cauliflower Bonaparte Jackson... Oh, and in case you haven't heard, everything is mine.'

This is how we meet Marcello, a kind, clever and loyal pooch with one troublesome flaw: Marcello is convinced that everything he comes across belongs to him.

His owner's slipper? It's his. Pork chops from the dinner table? Absolutely *his*. A tree in the local park? That's his too.

Marcello (and the list of things he owns) is getting out of control. Will his owner, Leo, be able to remind him what is really important?

THE TWIN DOGS

Chihiro Inoue

The twin dogs are a happy pair. They live in a cosy home with kind owners, and enjoy all the things well-loved dogs enjoy. When they aren't arguing over who's older, they like to take their family out for walks, drink milk in the mornings, play catch, and get petted whenever they fancy.

Then one day everything changes. No more milk in the mornings, strangers begin taking them for walks, and there's no running or playing catch... The twin dogs are shocked – what or *who* is the reason for this unwelcome interruption?

When the twins find out, they hatch a plan to get things back to the way they were. But will their lives ever be the same?
